

AIR/WATER HEATER PUMP 7KW

LIBERTE DE GESTION

www.energierenouvelable55.com

Specifications:

Power: 7000 Watts

Rated Power: 1840 Watts

BTU: 24 000

Power: 220V / 1phase / 50Hz

Power rating: 2.6A

Operating power: 12.5A

HOT water generated /hour: 150L

Temperature: 60 degrees celcius Max (factory setting)

Compressor brand: Panasonic

Refrigeration : R407C

Water Pump: integrated to the pump

Operating noise: 55dB

Net Dimensions: 118cm X 37cm X 66cm

Net weight: 50kg

Guarantee 1 year

Opportunities 60° or 80°
