

## WATER/WATER HEATER PUMP 7KW

[www.energiesrenouvelable55.com](http://www.energiesrenouvelable55.com)

### Specifications:

Power: 7000 Watts

BTU : 23 890

COP : 3.88

Power: 220V / 1phase / 50Hz  
or 380V / 3phases / 50Hz

Power rating: 6A

Operating power: 13A

HOT water generated /hour: 3m3

Temperature: 60 degrees celsius MAX (factory setting)

Compressor: Panasonic or Copeland

Operating noise: 25dB (Very silent!)

Net Dimensions: 100cm X 42cm X 72cm

Net weight: 100Kg

Guarantee: 1 year
