

## WATER/WATER HEATER PUMP 76KW

### Specifications:

Power Hot water : 76 000 Watts

BTU: 259 385

COP: 4.31

Power: 380V / 3phases / 50Hz

Power rating: 18A

Hot water generated /hour: 20m<sup>3</sup>

Temperature: 60 degrees Celsius Max (factory setting)

3-5 degrees Celsius for cold water

Compressor: Copeland

Refrigeration: R417A or R407C

Operating noise: 30dB

Net Dimensions: 143cm X 114cm X 105cm

Net weight: 330kg

Guarantee: 1 year

Opportunities inverter
